Study in 19 Countries Shows We May Struggle to Get High Uptake of a COVID-19 Vaccine

PETER DOCKRILL 23 OCTOBER 2020

While the world waits as patiently as it can for a COVID-19 vaccine to materialise, no shortage of questions remain. When will we have a vaccine? How will it be distributed? Will it be as effective as we hope?

aware of the coronavirus stigma

With a heightened awareness of how COVID-19 spreads, it can be easy to blame someone or someplace for the spread of the virus.
